

EAST BRIDGEWATER PUBLIC SCHOOLS
East Bridgewater, MA 02333

WE BELIEVE

“Schools are one of society’s instruments for passing on to young people the heritage of the past, the skills needed for meaningful existence in the present, and the ability to cope with the future. The success of the school system is dependent upon support by the community which it serves, and the school’s responsiveness to the community needs. Therefore, continuous interaction among the home, the school and the child is necessary for quality education.

The quality of our schools should be measured by the degree to which they successfully provide for the uniqueness of the individual learner by creating learning experiences which accommodate the variety of learning rates, learning styles and personal needs of our students within the spectrum of a public school program.

Our schools must be staffed by people who seek to understand the process by which people learn, the relationship of subject matter and individual tasks to the entire educational process, and the role of the school in a democratic society.

We accept the commitment and challenge of serving the community in a coordinated effort to maximize the quality of educational opportunity for each student in the public schools of East Bridgewater.”
